Name _____ Date of birth _____ - _____ - _____

Any topic you choose is welcome. Some ideas you might consider include your future ambitions and goals, a special talent or unusual interest that sets you apart from your peers, or a significant experience that influenced your life.
- **Second Essay (optional).** In the second essay, which is not mandatory, we invite you to provide us with additional understanding of who you are, especially as it relates to diversity of any kind. At King Solomon University, we take pride in being an increasingly diverse institution, and we believe that our campus community is made stronger when diverse perspectives are present and welcomed. (We consider diversity in all its forms, such as race/ethnicity, geographic and national origin, sexual orientation/gender identity, socioeconomic status, religion, ideology, academic interests, and more.) If your personal statement covered these ideas already, you do not need to repeat it, nor do you need to write on a second diversity-related topic. But, if you choose to respond, provide us with 250-500 words describing how attending KSU would help you to broaden your own understanding of difference and community, or what unique perspectives you would bring to the campus.

Freshmen Admission Requirements

STANDARD ADMISSION REQUIREMENTS

A. Graduate from a Standard or Regionally Accredited High School
To be admitted, you must graduate from a standard or regionally accredited high school. We offer tentative admission based on your sixth semester transcripts and your planned senior schedule. Final admission is granted only after we have received transcripts verifying successful completion of all admission requirements and your graduation. GED and homeschooled students may meet alternative admission requirements.

B. Complete Required Course Work
Complete 15 total college preparatory units with a grade of C– or better in the five areas below.

Name _____ Date of birth ____ - ____ - ____

- **English—four years**

All four years should be in preparatory composition and literature with emphasis on and frequent practice in writing expository prose

- **Mathematics—three years**

Must include first-year algebra and two additional years of college-preparatory mathematics such as geometry, advanced algebra, trigonometry, analytical geometry, calculus, finite mathematics, advanced applications, probability and statistics, or courses that integrate topics from two or more of these areas. An advanced mathematics course is highly recommended in the senior year. Algebra and geometry taken prior to ninth grade are acceptable. Regardless of the pattern of mathematics courses or the number of years of mathematics taken, the mathematics course work must include Algebra II (or equivalent) or higher

- **Science—three years**

Your three years of science must include at least one year each in two fields of college preparatory science such as biology, chemistry, physics, earth or physical science. One year of lab science is recommended.

- **Social Studies—three years**

May include United States history, global studies such as world history and geography, American government, economics, or psychology

- **Second-Language Proficiency**

If you graduated from high school or earned a GED spring 1997 or later, you must demonstrate second-language proficiency by submitting an official transcript or score report verifying one of the following:

Name _____ Date of birth ____ - ____ - ____

- a. Two years of the same second language in high school; or
- b. Two college terms of the same second language; or
- c. Proficiency test (for example, SAT Subject Test or BYU Foreign Language Assessment)

Options for meeting the second-language requirement, including American Sign Language, can be viewed online at admissions .KingSolomonUniversity.com/secondlanguage. Exceptions to this requirement are only considered for students graduating from high schools unable to offer two years of any second language.

Alternate Course Completion

If you have not completed the required high school course work as listed above, you may fulfill the requirements by doing one of the following:

- a. Taking the following SAT subject tests: Mathematics I or IIC and another test of the student's choice (other than math). Earn a minimum score of 470 on each of the two tests. A test in a second language is strongly recommended to meet the second-language proficiency requirements
 - b. Taking high school or college work to complete courses you missed in high school. A one-term transferable college course of at least three credits (quarter system) is equal to one year of high school work. We strongly encourage you to contact the Office of Admissions to verify that the courses you complete will satisfy your course work deficiencies
 - c. Proving proficiency through the Proficiency-based Admission Standards System (PASS) in English, mathematics, science, social studies, or a second language. Send PASS transcripts if available
- C. Earn a High School GPA of at Least 3.00 on a 4.00 Scale**

Name _____ Date of birth ____ - ____ - ____

Students who have a 3.00 GPA or higher on a 4.00 scale, whose standardized test scores and GPA predict college success, and those who have completed the required course work are eligible for admission consideration.

D. Submit Your Scores from Standardized Tests

Submit either the SAT or ACT scores. Official score reports can be submitted in three ways: from the testing service, on an official high school transcript, or by a high school counselor on the paper university application. When making the SAT Score Choice selection, choose the option to send all of your scores. KSU considers your highest section scores across all SAT test dates that you submit. Only your highest section scores will be considered as part of the final admission decision. If you submit all scores, we will update your record with any new high scores.

Other Considerations

Fulfilling the standard admission requirements does not guarantee admission to KSU. Because of space limitations, we admit the most qualified applicants. We consider factors such as the level of course work taken in high school, grades earned, grade trend, class rank, senior-year course load, academic potential, special talents, extracurricular activities (including community service or the need to work to assist your family financially), the ability to enhance the diversity of the university, and academic motivation as demonstrated in the application essay. Extracurricular activities will be considered but will not compensate for low grades or weak course loads.

Alternative Admission

Applicants with GEDs

Name _____ Date of birth _____ - _____ - _____

With a GED, you are not required to submit SAT scores, ACT scores, or high school transcripts. Applicants with GEDs must complete the personal statement/essay question listed on page 4.

The date of your GED matters:

- **If you received your GED after December 2013, your standard score on each of the four examinations must be at least 150, and a total score of 680 or higher.**
- **If you received your GED between January 2002 and December 2013, your standard score on each of the five examinations must be at least 410, with an overall average of 580 or higher.**
- **If you received your GED before January 2002, your standard score on each of the five examinations must be at least 40, with an overall average of 58 or higher.**
- **In addition, if you received your GED in the spring of 1997 or later, you must demonstrate second language proficiency as described on page 5 under Section B, Complete Required Course Work.**

Homeschooled and Non-accredited High School Graduates

To be considered for admission you need to meet all four of the following requirements:

- **Complete either the SAT with a minimum score of 1,540 for critical reading, mathematics, and writing scores combined, or the ACT with the optional writing component and a minimum score of 22**
- **Take the SAT Subject Test in Math I or IIC and a second test of your choice (other than math). Earn a minimum score of 470 on each of the two tests. A test in a second language is strongly recommended to also meet the second-language proficiency requirements**

Name _____ Date of birth _____ - _____ - _____

- **Demonstrate second-language proficiency as described at admissions.KingSolomonUniversity.com/secondlanguage.**
- **Submit an essay in response to the personal statement/essay question listed on page 4. You can also provide the second (optional) essay and special circumstances statement if you choose.**

15. High School Subject Requirements (Freshmen only)

To make admission and scholarship decisions we need to know the college preparatory classes you will have completed by the time you graduate. Many transcripts do not include a senior schedule.

Therefore, list all senior courses below. Also indicate the total number of courses in our five required subject areas you have completed through the end of your junior year (see page 5). Indicating which courses are honors, AP, IB, or college credits will help us identify the strength of your curriculum choices.

We need to know if you will have completed the equivalent of a full unit of each course requirement. Since there are a variety of term systems, we need your help to identify if you will have the equivalent of a full year of each subject. One term of college course work is equivalent to one unit of high school.

Name _____ Date of birth _____ - _____ - _____

INSTRUCTIONS: Failure to complete this section will delay your admission decision. For your senior year, list the course titles and the units in a particular subject you will have completed by the time you graduate. For grades nine through eleven, enter the total units. Indicate courses as regular (RG), honors (HN), Advanced Placement or International Baccalaureate (AP/IB), or college credits (CC).
